ABQ Health Partners Joins VSP Global to Provide Superior Eye Care to More New Mexicans

Albuquerque, NM – ABQ Health Partners, the largest physician-owned medical group in the southwest United States, has announced the organization's two Eye Clinics are now affiliated with the VSP Global™ network, effective January 1, 2010.

“Our staff and providers are excited about being able to provide more people with superior vision care,” said Clara Garcia, Manager of the ABQ Health Partners Eye Clinics. “We’re looking forward to being able to care for patients that we couldn’t see until now.”

VSP Global™ currently offers vision coverage to over 55 million members nationwide.

ABQ Health Partners offers a unique benefit to patients because our medical doctors can care for issues that present during a routine eye exam, such as cataracts, providing a higher level of consistent care.

The ABQ Health Partners Eye Clinics are located at 5400 Gibson Blvd. SE and 5150 Journal Center Blvd. NE. To schedule an appointment, patients can call (505) 262-3937.

***About ABQ Health Partners:** ABQ Health Partners is the largest physician-owned medical group in the Southwest and offers a comprehensive array of health care services backed by more than 40 medical specialties to cover the health of New Mexicans from head to toe.*
